Troubleshooting tips:

1) I have an existing Bloomz account but don't see the new year classes in it. Check if your Bloomz email /phone number match with your school's SIS data (verify with your teacher or school admin)

• If they do not match, follow the steps to delete the old account and create a new account with the code sent to your new email or phone number.

• If they match, check with the school admin if they completed the invitation process to see new classes.

Steps to delete the old Bloomz account and create a new account to get access:

a) Sign in to your old Bloomz account and "delete" your account from account settings**.**

b) Create a new account using the new code that is sent to your email address or phone number.

2) I don't remember my existing Bloomz password

Steps to reset the password to your existing Bloomz account:

a) Goto http://app.bloomz.net > Sign In > Forgot Password to request a new password.

b) Sign in with the new password.

3) I get both email and phone texts from Bloomz. How do I logIn?

You can sign in with either your email or phone number to your Bloomz account to see your classes. If you don't remember the password, try the reset password steps above.

4) Can I forward the code to others to sign up?

Your invitation code is unique to you. Once you sign up, the code cannot be used again.
